WET WATER WARRIOR PROGRAMME

XXX

ADD TITLE

Introduction

Movie warm up while we wait

Who are we?

CapeNature is the part of government that protects natural occurring plant and animal life (biodiversity) in the Western Cape.

NOW - Introducing our incredible staff...

CapeNature

20
YEARS
1999-2019

Twenty years of nurturing nature for you

What are we going to do today?

- Learn all about water and wetlands
- Do a water cycle puzzle
- Play a game of clouds n puddles
- Wacky water arts and crafts
- Wonderful wetland investigation

Twenty years of nurturing nature for you

Evaporation

The background of the slide features a serene sunset scene over a body of water. The sky is a deep, clear blue, with soft, wispy white clouds scattered across it. A bright sun is positioned on the right side, just above the horizon, creating a series of vertical rays of light that extend downwards across the sky. The water in the foreground is calm, reflecting the colors of the sky and the light from the sun, creating a shimmering effect. The overall atmosphere is peaceful and natural.

Wonderful Wetlands

CapeNature

20
YEARS
1999-2019

Twenty years of nurturing nature for you

What are wetlands?

Land that is covered in water all year or part of the year...

Can you give some examples of types of wetlands?

How many did you guess right?

Marshes
Ponds
Lakes
Rivers
Flood plains
Swamps
Mangroves
Estuaries
Lagoons

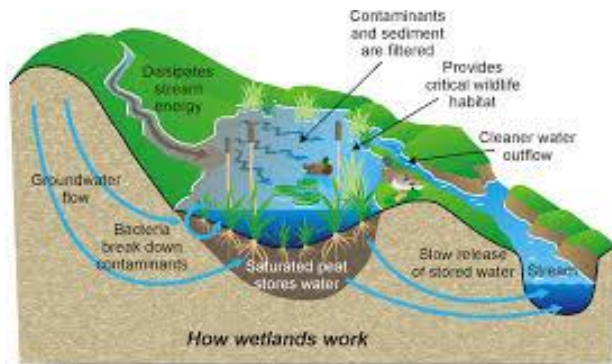

CapeNature

Twenty years of nurturing nature for you

Why are wetlands important?

- Provide fresh water for us all
- Clean water
- Home to many plants and animals
- Help fight climate change

Perfect poems

WATER

When they ask you why you love
the rain, the ocean, the river,
tell them
it is because
unlike the people
who should have
loved you better,
the water was never afraid
to touch you,
even when you were
at your most damaged
and broken.

Nikita Gill

Rain
Like a faucet the water fell. When will it stop?
I cannot tell. Maybe God should turn
the spigot, off
the way to all.

I
am
not a
fish, so
what I really
really wish, is once
this water goes away
I can go outside to play
but if this water hangs
about, I am afraid
I won't get out.

WATER, WATER, EVERYWHERE

Water, water, everywhere,
To wash my hands and wash my hair,
It's nice to drink it by the pool,
Slurp it, sip it, nice and cool.

It comes from clouds don't you know,
Falls in rain and also snow,
Keep it clean or you will be,
Sick as sick, as sick can be!

We are lucky here at school,
To have clean water to keep us cool,
Think of others when you get paid,
And give a bit to Water Aid!

By Chloë Woodhouse age 10

For whatever we lose
(like a you or a me),

It's always ourself we find
in the sea.

- E. E. Cummings

Water, Water, Everywhere!

Water, water, everywhere,
To wash my hands and wash my hair
It's nice to drink it by the pool,
Slurp it, sip it, nice and cool.

It comes from clouds don't you know,
Falls as rain and also snow,
Keep it clean or you will be
